

ecoAGRO – SILAGE WRAP FILM

ecoAGRO film attributes:

- the highest quality made in accordance with global standards
- the most ecological film available on the market
- very good strength and barrier parameters confirmed by independent European Research Units

In addition, we offer:

- RecyClass certified film which is giving tangible financial benefit, therefore customers can pay less tax on plastic
- specialized barrier films that protect against excessive UV radiation or rodents and birds
- expert advice and technical support
- manufacturer's warranty and 12-months protection from the moment of wrapping

Folgos ecoAGRO

ECOLOGICAL SILAGE WRAP FILM

Application and features of ecoAgro film:

- the film is used for wrapping bales of hay or other after-crop plants for ensilage
- dedicated to all types of wrappers available on the market today
- multilayer structure of the film ensures high barrier properties to protect against air access
- the film features very high puncture and tear resistant (can be used for fodder plants with hard stems)
- good adhesive properties of the film ensure easy sticking of roll ends and excellent adhesion of layers, preventing oxygen getting into the bale
- bidirectional orientation of the film maintains correct bale shape
- stretchability of the film: 50%-70%

We offer:

id	colour *	thickness	width **	length **
FB500	white	25µm	500 mm	1800 m
FZ500	green	25µm	500 mm	1800 m
FC500	black	25µm	500 mm	1800 m
FN500	blue	25µm	500 mm	1800 m
FB750	white	25µm	750 mm	1500 m
FZ750	green	25µm	750 mm	1500 m
FC750	black	25µm	750 mm	1500 m
FN750	blue	25µm	750 mm	1500 m

* other colours available on special client's request

** tolerance +/- 2%

ecoAGRO Certified stretch
RecyClass Recycled Plastics Traceability 90%

ecoAGRO Repellent
We offer a barrier film that is designed to protect bales from bird and rodent attacks
